© Sept 1999 Marcia Hohn

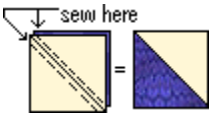

Color 1 TWO 4-inch squares

Color 2 EIGHT 4-inch squares

Color 3 SIX 4-inch squares

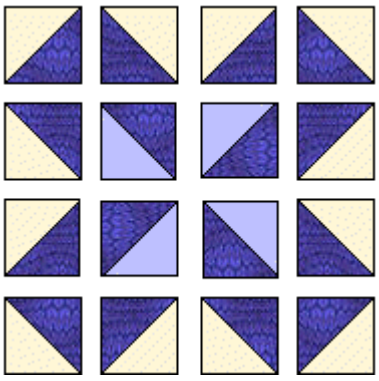

- Pair up a square of **Color 1** and **Color 2**, right sides together and all edges aligned.
- On the back side of the Color 1 square, lightly mark the diagonal.
- Sew a scant 1/4" away on each side of the marked diagonal line.
- Cut apart on the marked line between the stitching, resulting in two half-squares.
- Press seams to the darker side.
- Repeat for a total of FOUR half-square triangles.

Use the same process to pair six squares of **Color 2** and **Color 3**, resulting in TWELVE half-square triangles.

TRIM ALL SQUARES to 3-1/2 inches.**

- Lay out the half square triangles as shown at left.
- Sew together each row.
- Press seams of each row in alternating directions. Seams will then nest when attaching the four rows together to form the completed block.
- Sew the rows together and press the finished block.

***NOTE:** IF you are a precise and accurate cutter and sewer and IF you would rather avoid trimming the squares to 3.5 inches, cut your starting squares to 3-7/8ths inches. The resulting squares from the sewn triangles will be 3.5 inches, with no trimming needed.*
