Color 1 DARK PURPLE
Color 2 WHITE, IVORY, OFF-WHITE, SOLID or TEXTURE

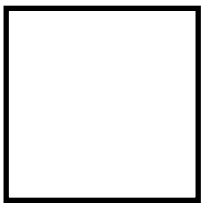

Traditional

Pattern adapted from
#109 "Windmill"
The NEW Quick & Easy

@ 2016 by C&T Publishing,

Color 1 FOUR 4" squares

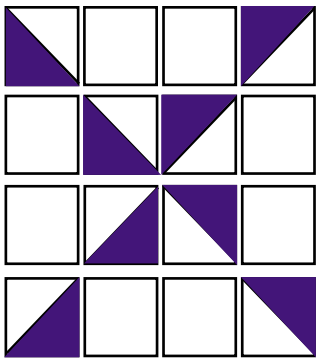

Color 2 (background) EIGHT 3.5" squares

FOUR 4" squares

- Pair up 4" squares of **Color 1** and **Color 2** right sides together and all edges aligned.
- On the back side of the Color 2 square, lightly mark the diagonal
- Sew a scant ¼" away on each side of the marked diagonal line
- Cut apart on the marked line between the stitching, resulting in 2 half-square triangle units
- Press seams to the darker side
- Repeat for a total of **EIGHT** half-square triangle units
- **TRIM** all half-square triangle units to 3.5" square

- Lay out the plain squares & half-square triangle units as shown at left
- Sew together each row
- Press seams of each row in alternating directions. Seams will then nest when attaching the four rows together to form the completed block
- Sew the rows together and press the finished block

***Note: IF you are a precise and accurate cutter and sewer and IF you would rather avoid trimming the units to 3.5", cut your starting squares for the half-square triangle units to 3-⅞". The resulting squares from the sewn triangles will be 3.5", with no trimming needed.*
