Cut ONE 4 ½" x 4 ½" square
of green fabric

Cut EIGHT 2 ½" x 2 ½" squares
of same or another green fabric

Rectangle A

Rectangle A:
Cut FOUR 2 ½" x 8 ½" strips
of white or ivory fabric

Rectangle B

Rectangle B: Cut FOUR 2 ½" x 4 ½" strips
of white or ivory fabric

ASSEMBLY:

Sew a small green square to each end of TWO piece A rectangles and TWO shorter piece B rectangles.
Sew the long side of 2 piece B rectangles to opposite sides of the big green square.
Sew the piece B rectangles with green end squares to bare sides of the big green square.
Sew the long side of 2 piece A rectangles to opposite sides of the prior made square
Sew the long piece A rectangles with green end squares to the other sides of the square

Press carefully. If seam allowances are accurate, the resulting block should be exactly 12 ½" square. If it is too small, make seam allowances a bit narrower. If it is too large, make seam allowances a smidge wider. Measure the final block or piece, not the width of the seam allowance to judge if seam allowance is correct.
